

SYSTEM, METHOD, AND ARTICLE OF MANUFACTURE FOR OPENING A WEB PAGE UPON DOCKING OF A CLIENT DEVICE

ABSTRACT

A system, method and article of manufacture are provided for driving navigation to a particular web site. A docking of a user's client device with a computer is detected. A web page pre-designated to open upon docking of the client device is selected. The pre-designated web page is downloaded. The web page is displayed on a display of the computer.

5 computer.
